VOL. XVIII. No. 4.

EDMONTON, ALBERTA, MONDAY, NOVEMBER 11TH., 1895.

SEMI-WEEKLY, 4 PAGES.

## TELEGRAPHIC.

Winnipeg, November 11th.  
Paul Feiguan was found dead at Calgary. It is again rumored that A. W. Ross has resigned.  
Nova Scotia breweries are being bought up by a syndicate.  
A gigantic transportation monopoly is being organized in Chicago.  
The Manitoba and Northwest Territories Presbyterian synod meets in Winnipeg tomorrow.  
Cuban insurgents continue to succeed and the chances of autonomy are improving.  
Lord Salisbury made an important speech at the Lord Mayor's banquet in London on Saturday.  
The case for the crown in the Farr trial was closed on Saturday and the defence begins to day.  
Venezuelan talk of successfully resisting British aggression and of the consummation of continental union.  
At Holy Trinity church yesterday the 20th anniversary of Arch-deacon Fortin's rectorship was celebrated.  
Ald. Jamieson has announced his intention of running for the Winnipeg mayoralty at the coming elections. He will be opposed by Ex Alderman Bole.  
Sir John Schultz's description of the immense resources of Northern Alberta, and his fearless utterances on the aid which it should receive, has attracted great attention here; and should help greatly the able home efforts so long made. Sir John and Lady Schultz are everywhere congratulated in his improved appearance, but urged not to think of leaving Manitoba.

## LOCAL.

TRAIN left Calgary on time.  
MRS. AL. BROWN is seriously ill.  
COUNCIL meeting Wednesday evening.  
SLIGHT rain last night and lovely weather to-day.  
W.D. Matheson leaves to-morrow for a visit to the fisheries of Lake St. Ann.  
SASKATCHEWAN school district is advertising a sale of lands for arrears of taxes.  
The E. L. Smith Co. have enlarged their store by taking the rear addition into the main building.  
THERE will be a meeting of the C. M. B. A. in their hall to-morrow evening, Tuesday Nov. 12th.  
The landing at the foot of the Cliff street grade could be very much improved, and should be before the frost gets in too deep.  
CAPT. BAILEY, of the Salvation army, will arrive on to-night's train, and special meetings will be held in the barracks on the following evenings.  
W.M. MACDONNELL & Co. have closed out the Wetaskiwin branch of their business. Mr. Jacobs, the manager has removed to his ranch on Battle river.  
J. A. BOYLE, teller in the Edmonton branch of the Imperial bank, left on Friday's train for Brandon to take a like position there. J. S. Fulton is acting teller now.  
McLEOD & Boks' thrasher at Little Mountain is laid up for the season owing to the illness of Mr. McLeod. More grain was threshed than last year, but the quality is not as good.  
THURSDAY'S train brought 4 cars coal for the C. P. R. from Canmore, 1 car wheat for the Edmonton Milling Co., from Moose Jaw, 1 car lumber from Vancouver for F. A. Osborne, 1 car lime from Kananaskis for K. A. McLeod, 1 way car.  
R. K. MARSHALL brought a couple of pounds of new potatoes to the BULLETIN office this morning, which were grown in his garden in town. They were the product of a sack of old potatoes thrown out of the cellar a couple of months ago.  
W. L. WOOD, manager for the H. B. Co., at Athabasca Landing, came in from the Landing on Saturday evening. The river is closing, the steamer has been hauled out and matters have settled down into their winter groove. Mr. Wood remarks on the wholesale destruction of timber by fire between the Sturgeon river and the Athabasca along the trail.  
On Wednesday evening as pastor A. Macdonald was driving on Seventh street towards the H. B. Fort, and leading a young horse behind the rig, the latter was startled by a loose horse, and it started the horse drawing the buggy so that it threw Mr. Macdonald out, together with the buggy seat and whip. He ran after the rig and caught the horse, which did not run far. On returning to the place where the seat and whip had been, he found they had disappeared, and have not since been heard of.  
MRS. CHAS. MAIR, sister of H. W. McKenney of St. Albert, who arrived recently from Kelowna, B. C., has rented the Victoria avenue, recently occupied by J. C. F. Bown and will occupy it for the winter. Mr. Mair will remove to Edmonton in the spring. Mr. Mair is well known as a pioneer of the Northwest, having been in business in Portage la Prairie in the early 70's. He afterwards removed to Prince Albert, and thence to Kelowna, B. C., on Okanagan lake. He is the author of "Tecumseh," a poem of great merit, dealing with the stirring events and great figures of the war of 1812.  
JAS. NORRIS returned from Lac la Biche on Saturday, having taken F. C. Gilchrist, fisheries inspector, out. Mr. Gilchrist will remain for a week or two longer collecting information regarding the fish and fishing in Lac la Biche and adjacent lakes. The ice was forming in the lake when Mr. Gilchrist arrived and about three inches of snow fell a week ago Sunday, making fair sleighing. The mission thresher was at work, and grain was being hauled to it on sleighs. The crops were poor owing to dry weather and the people have dark prospects for the winter before them, as rabbits are scarce. Mr. Gilchrist maintains that the people can fish successfully through the ice during the winter but this remains to be proven and should it turn out to be a mistake there will not be an opportunity to remedy it. The usual fall fishery has been entirely stopped in accordance with the fishery regulations in Lac la Biche, Beaver lake, Buck lake, Whitefish lake and Goodfish lake.

The close season for whitefish ends on December 15th, not November 15th.  
The river is still running ice but is fordable at the rapid above the fort, or can be crossed in boats.  
G. BERG has opened out a fruit and confectionary store in the building between the BULLETIN office and Graydon's drug store.  
L. DORAIS has been appointed travelling agent of the Del Monte cigar factory of Victoriaville, Quebec. Maheu & Dufresne, proprietors.  
The new grade from the upper bridge site to South Edmonton is about completed. It would add to the usefulness of this grade if the town would improve the old grade on the north bank of the river, opposite.  
W. G. IERSON, who was engaged as assistant land agent at Wetaskiwin for the past season, returned last week, the office staff having been cut down for the winter. Fires have done a good deal of damage in the Wetaskiwin district this fall.  
The Vancouver World has decided to issue twice a week. The Victoria Colonist is a semi-weekly. The Free Press is a semi-weekly. In this age of progress the weekly paper is too slow for the majority of the people and the semi-weekly has the run.  
BRACKMAN & KEE's oatmeal mill steamed up for a short time on Wednesday and Thursday to test the machinery, but no work will be done for some time yet; not until everything is in shape to turn out a first class article that will do credit to the reputation of the firm's British Columbia mills.  
The weather which was quite wintry on Monday and Tuesday, became mild again on Friday and Saturday, taking away the little snow that had fallen and thinning the ice in the river so that teams could ford on Saturday above the fort. Crossing in small boats has been going on all the time.  
THRESHERS generally report considerable damage to grain by stacking when the straw was not sufficiently dry. In such cases, the straw is always tough to thresh and the grain is frequently damaged. In one case a farmer who had threshed out nearly a thousand bushels of wheat lost half of it by its becoming heated in the granary.  
THOS. HOBSTON returned from Banff on Thursday. He left Mr. Carey, whom he had accompanied to Banff, feeling considerably better and able to walk a little without the aid of crutches, although he had only been at the Sanitarium a few hours. The change and treatment will no doubt do him a great deal of good. He will remain a month or more, being cared for by his son, Ed. Carey.  
W. W. DAVIDSON, general manager in Alberta for the Massey-Harris Co., arrived on Thursday's train to take stock on the close of the summer's business. He spent some time recently in the Cardston and adjoining settlements at the foot of the Rockies and almost close to the boundary line. Crops are good there this season in all three settlements and will aggregate about 60,000 bushels of grain. Three creameries were running, doing good work and with satisfactory financial results. It is expected that the numbers in the settlements will be largely increased next season by arrivals from Utah.  
S. GARNHAM is getting his hockey rink into shape. The ice will be 148 feet by 75 feet, and is uncovered. At the west end, is a covered building 18x80, which will be divided into three waiting rooms, one exclusive for hockey players, one for ladies and one for the general public. In rear of the waiting rooms is a shooting gallery, 80 feet by 4 feet for rifle practice with Morris tubes. The ice will be used both for hockey playing and for skating. It is proposed to reserve Tuesday and Wednesday nights for hockey, and also an hour on Monday and Thursday afternoons and an hour on the same evenings. The rest of the time the rink to be open for skaters. From 2 to 4 every Saturday afternoon small children will be free. The rink is most conveniently situated and will no doubt make both hockey and skating very popular.

W. A. FRASER, manager of the government oil boring party at Athabasca Landing, arrived from the north on Saturday evening. Ice had been running in the Athabasca for some time before he left, but the river was not yet frozen across. There was enough snow on the ground to allow the use of sleighs. The snow extended nearly all the way to the Sturgeon. Fires are still smouldering in the swamps between the Vermilion and the Athabasca, but are not spreading very much. The oil well is down 1,700 feet and arrangements have been made to go still deeper. The work will be continued during the winter whenever the weather permits. Although oil has not yet been struck, the boring shows that the strata calculated upon by the geologists are there. This information is of great practical value in any case and if oil is found of course the advantage will be incalculable. Gas has been struck at various depths. Mr. Fraser leaves for Toronto on to-morrow's train.

The entertainment given on Friday evening in Hourston's hall in aid of the Presbyterian church organ fund, by the pupils of Mr. Randall's singing class, was very largely attended, the seating capacity of the hall being occupied to overflowing. The performance was entitled "Robinson Crusoe," and comprises readings from the story of that name, illustrated or emphasized at suitable points by songs set to familiar tunes, which were rendered by the children in solos and choruses in a very pleasing manner, which showed the care bestowed upon their training by Mr. Randall. The readings were given by Mr. Mackenzie, principal of the public school, and the piano accompaniments were played by Alex. McCauley. M. McCauley presided as chairman. At the close of the singing, when Crusoe after going through his well known adventures on the island had safely returned to England, a number of magic lantern views were given, but owing to several causes the whole of the views were not exhibited. After a promise to give the children a free magic lantern exhibition when more suitable arrangements had been made, the proceedings were closed. The admission was only ten cents, but a handsome addition was made to the organ fund.

SALE of cattle belonging to W. S. Edmiston on Thursday.  
MRS. McCULLY returned from Medicine Hat on Thursday's train.  
J. A. McDUGALL left for Vancouver San Francisco and Panama, on Friday's train.  
ANGUS MACLEOD and K. L. Matheson of Rabbit hill settlement were injured in a runaway accident on Tuesday last.  
MESSRS. F. A. Hardisty and ex-constable Cowan left to day for Buffalo chip lake, about half way to the mountains on the way to Jasper House, to hunt and trap and prospect for the winter.  
The ladies of the hospital ball committee, wish to convey their sincere thanks to Mr. Robertson, Mr. and Mrs. Jackson, Mr. Oliver, the livermen, the band, the members of the orchestra, each lady and gentleman who so kindly helped with music, and all others who assisted in making the ball a success. \$340 taken in up to date. A few reports not yet in.

OATS are coming in more freely as the fall work becomes more nearly finished. The price is 15c. to 20c. the latter price being paid for what is required for local use. The top price for export is 18c. Wheat is coming in about as before and at former prices. Very little barley is coming in and very little is wanted. Hay and potatoes are plentiful at former prices. Butter is in full supply at 15c. to 20c., but eggs are getting scarce at 20c. to 25c.

The new Methodist church at Sturgeon river is completed and receiving its finishing touches by the painter. Messrs Clark & Folliott are supplying the seats, which are to be placed in the building next week. The church is to be formally dedicated on Sunday Nov. 24th, when the following ministers are expected to be present: At 11 a.m. Rev. J. Woodworth, Supt. of Methodist missions will preach the dedication sermon. Rev. A. Forbes of Fort Saskatchewan will preach at 3 p. m. and in the evening Rev. G. W. Dean will conduct service. An entertainment will be given the following (Monday) evening consisting of a supper and an illustrated lecture entitled "A trip through the Rockies" by Rev. Mr. Dean.

NOTICE.  
A meeting of the Liberal Association of Edmonton will be held in Hourston's hall on Friday, the 15th inst., at 8.30 p. m. Business: To settle financial affairs and consider the political situation.

EDMONTON BULLETIN, NOVEMBER 11TH, 1896.

## RAILWAY CHARTER.

The advertisement of application for a charter for the Edmonton district railway company, which appears in another column, is worthy of more than passing attention. It embraces the points of most importance to the future of this town and district. It not only includes the most important connection with the existing railway, but also railway extensions north, east and west of a most desirable nature and such as would tend to develop the many resources of the country immediately north of the Saskatchewan. But it is to be not only a railway company, a ferry company, a coal mining company, a stone quarrying company, an oil company, a gold and other mining company, and an electric, water power and navigation company; in fact it is a company which is asking for such powers as would enable it, if it has the necessary capital, to control the commercial and industrial development of the Edmonton district. This being the case the proposal to organize such a company cannot but be regarded with deep and practical interest by the people of Edmonton. Its organization must be either great good or great harm to the town and district. If it is a company of immense capital sufficient to give form and substance to all the various schemes alluded to in its application, it would no doubt be received with almost universal favor; for the danger of the monopoly that would be the object of so large a scheme would be outweighed by the present benefit of the large necessary expenditure of cash, and the confidence that the attempted monopoly would be so wide spread and disjointed that it would very soon fall to pieces of its own weight. On the other hand if it is a company that is only possessed of sufficient capital to give effect to some of the suggested schemes, it is a matter of more than curiosity—it is of deep business interest—to the people here to know what particular schemes would claim the attention and absorb the capital of the company. For there are grave reasons against giving to companies powers that they are not prepared to use at once; which they can hold in abeyance, to be used when the opportunity occurs and in the meantime be held as a check and hindrance to the enterprise of others. Charters have been secured in the Northwest before to-day, by companies which had no adequate capital, who could never have gone on with the projects for which they asked incorporation; who got charters for the purpose of holding them until a company that really meant business offered to buy them out and pay their price; thereby using the charter which was granted ostensibly to secure the development of the country as a means of retarding that development, by making capital pay tribute to their speculation. Railway charters have furnished the most fruitful field for this kind of speculation. Of this nature is the Winnipeg and Great Northern—or Hudson's Bay—charter; the Great Northwest Central charter; and to come nearer home the Alberta and Athabasca charter, which was bought out for a round sum before the present C. & E. could be proceeded with. It stands the people of Edmonton in hand to find out before the extensive privileges asked for under this proposed charter are granted just what is the standing of the company asking for them. When certain powers are granted by charter to a private company, they are supposed to be granted after full consideration of the case by parliament, and after full opportunity has been given everyone by public advertisement of producing their objections to its being granted. If after

such advertisement has been duly given, no objections are made, and the charter is granted, the company is considered to have acquired a certain vested right in the powers conferred, which right must not be interfered with by anyone else, not even by parliament itself, during the life of the charter. It is this feature of the case that makes a charter valuable to those who hold it and dangerous to those whose rights or property its powers affect. At the present time the town holds practically in its own name a charter for a street railway which covers the most important part of the same ground as the advertised scheme which contains certain provisions specially adapting it to the situation and circumstances in and for which it is required. This charter cost the town a good round sum and was procured with a definite object in view. That object was to give the town railway connection with the main line of the C. & E., and there can be no doubt that its provisions are ample for the purpose, or if they contain any possible fault or flaw that fault or flaw can easily be remedied at the coming session of parliament. During the life of this charter the town has a specially direct interest in any other charter purporting to cover the same ground, for if it allows another charter covering that ground to be granted without protest, either the new charter supersedes the one held by the town or may be brought into undesirable conflict with it. The connection between this town and the C. & E. railway is the key of the situation. This key is held at present by the town under its street railway charter. It is a matter of the most common prudence before it allows the key to pass into other hands, that the people of the town whose property and interests are to be affected should be thoroughly informed as to the standing and intentions of the proposed company before they give their consent to its being vested with absolute powers as to the future welfare of the town and district. It is the duty of the town council to secure the fullest information on these points and to let the ratepayers know fully and clearly the position of affairs. This is not one of the occasions in which we can afford to let matters drift or to go it blind. There is every reason to believe that we lost heavily by not looking sharply after the C. & E. charter when it was being granted; indeed that the necessity either of the street railway or of the proposed charter might have been altogether avoided had we done so. We could scarcely help the mistake then, not having town organization, but let us not repeat it now that we have that organization and are fully alive to our requirements.

## FREIGHT RATES.

The Winnipeg Commercial, dealing editorially with freight rates says:

"The Neepawa Register wants to know why a bushel of wheat can be shipped from 'a western point in the United States' to England for 17 cents, if it costs over 30 cents as shown by the Commercial, to ship a bushel of wheat from Manitoba to a British port. We do not know to what 'western point' the Register refers. Wheat could be shipped from Duluth to Liverpool at about this cost—more or less, according to the season and the rate of lake and ocean freights ruling at the time. But this is not a parallel case. To get a parallel case it would be necessary to take a north Dakota point, as far from Duluth as Manitoba is from Fort William, and in this case the cost would be found to be as high or higher than from points in this province."

But why take a North Dakota point, particularly? Why compare the rate from a way station in North Dakota with the rate from a great commercial and shipping centre like Winnipeg—except to make an unfair comparison to the advantage of the railway company? Does not Winnipeg stand as between Fort William and the Canadian Northwest in very much the same position as St Paul does as between Duluth and the United States Northwest. Admitting that St. Paul is nearer Duluth than Winnipeg is to Fort William, still the proportionate rate should be the same. Is it the same? and if not why not? If comparisons are to be made let them be fairly made, not ignoring on each occasion the important feature that would tell against the new found friend of the Commercial.

# OUR NORTHWEST GOVERNOR.

Free Press: His Honor Lieutenant-Governor Mackintosh arrived from the west yesterday. He accompanied his children who are enroute to Ottawa to continue their school course, as far as the city, and will remain here for a day or two. Lieutenant Mackintosh's object in coming to Winnipeg at this juncture is principally to pay his respects to the new lieutenant-governor of Manitoba. His honor was asked by a Free Press reporter last evening as to the amount of truth that might lurk in the statement of the London Advertiser that he was about to return to Ottawa with the ultimate object of succeeding Hon. Mr. Daly in the cabinet, and again representing Ottawa in the Dominion house. His honor replied that the Advertiser must have been misled, inasmuch as he had received no such proposition from the electors of Ottawa, from whom he might expect some intimation if there were any truth in the rumor.

## GENERAL NEWS.

Skating parties are in order at Portage la Prairie.

Bacon and hams are quoted at 9c. to 11c. in Montreal.

Shortis, the Valleyfield murderer, has been sentenced to be hanged on Jan. 3rd.

Eugene Field, a humorous and poetic writer of Chicago, died suddenly on Nov. 4th.

The Manitoba government is arranging with the Salvation army to take charge of a number of incurables who cannot be taken into the home at the Portage.

Lieutenant-Governor Dewdney, of British Columbia, has gone to Ottawa on a trip which it is darkly hinted by the Free Press bears traces of political significance.

Robt. Kerr, traffic manager of the C. P. R., estimates that the shipments of cattle from Manitoba and the West this season will amount to 50,000 head, worth about \$2,000,000.

The Winnipeg Commercial quotes creamery butter as scarce at 30c. in Vancouver, and Manitoba dairy at 19c. Stocks of butter are about exhausted. Oats have declined to \$16 a ton.

Gordon & Ironside are about closing their season's shipments of cattle, but will make further shipments in January and February. They advise farmers to feed up their cattle for that shipment rather than send any forward that are not in first class condition.

The Montreal Trade Bulletin's London letter says that butter is still advancing sharply. Danish commands 136 shillings (per hundredweight of 112 lbs.) while the same quantity Canadian is worth 84 to 96 shillings. There is evidently something yet to be learned about butter making in Canada.

The Battford Herald announces that the Battle river froze over in many places on the night of October 27th, and in the issue of Nov. 1st, it remarks that the ice in the Saskatchewan stopped running yesterday, and it was expected that by this morning it would be safe for people on foot.

The Victoria Colonist publishes evidence of a revival of gold mining in Cariboo, at one time the richest gold field in America. At present there is a enough freight lying at Ashcroft, the station on the C. P. R. from which the Cariboo road starts, to keep the teamsters busy all winter. All that Cariboo needs is the railway. It is to be hoped that it will get the British Pacific.

Winnipeg Commercial, Nov. 4: The long spell of weather favorable for threshing was broken by rain and snow at the close of last week and the temperature has been unusually cold this week, for so early in the season. There is a great deal of threshing to be done yet in some districts, and great care will have to be exercised to remove the top of stacks where snow has fallen, to prevent it from getting mixed with the grain. If it does it will make the grain practically unsalable, as damp grain cannot be taken into store. A full month's threshing is yet to be done in some districts. A long open fall was greatly to be desired this year, but the winter is setting in much earlier than usual. Comparatively little plowing has been done for next year's crops. To-day is milder.

The Commercial says that the top price paid to farmers in Manitoba for wheat is 43c. and 41c. to 42c. at most country points. Oats are 16c. for feed to 18c. for milling, in Winnipeg and 15c. to 16c. at country points. Very few oats are marketing and there will not be much movement until next spring, as they cannot be shipped out on winter freight rates and there is no storage room here for them. The oat crop has hardly been touched yet. Last week only ten cars were shipped east of Winnipeg. Oats have advanced a cent or two in Eastern Canada markets to 30c. to 31c. at Montreal and 22c. to 24c. in Ontario country markets, owing to the going into effect of winter freight rates, and dealers were buying before the rates came in, after which the prices will be lower.

Commercial Winnipeg, Saturday, Nov. 2: Business in general mercantile trade is very good. Reports from the country are coming in, telling of improvement in trade, and from some points reports state that business is better with the country merchants than it has been for years. Country merchants have stocked up more heavily this year than usual, and a larger jobbing trade is looked for by wholesale houses. Collections are improving, though slow from some points and quite good from others. Several new elevators have been started at country points, though the season is late. The great fear now is of a grain blockade for lack of storage room, after the close of navigation, owing to the vast amount of grain in the country. Considerable storage space is already filled. The weather has been unusually wintry for the season, and an early closing of navigation is looked for. Freight rates are stiff. Winter rates are being put into effect on the railway east, and lake and rail lines. The first pinch for cars to ship grain came this week, and the railways were hardly able to keep up with the demand for cars. Fall plowing was stopped by frost this week, at a date much earlier than usual, though it is expected to open up again. Very little plowing has been done, which indicates a curtailment of the crop area next spring. Land sales are said to be a little larger. Interest rates are steady at 6 to 7 per cent on loans on city property, and 7 to 8 per cent on farm loans. Bank discounts, 7 to 8 per cent. Bank clearings at Winnipeg for October show an increase of about 15 per cent over October last year, and an increase 31 per cent for this week, over the like week last year.

AUCTION SALE OF VALUABLE

## Business . Property

AT FORT SASKATCHEWAN

Commonly known as the business premises lately occupied by Lindow & Grindley.

This property comprises two lots in a corner block of land 100 x 150 feet, being lots numbers 7 and 8 in Block 11, Plan 0, of the Town of Fort Saskatchewan. The buildings on the property comprise a store 30x40 feet with lean-to 15x20 feet; two warehouses attached to rear end of store, one 15x30 feet and the other 15x20 feet and a stable at the rear of the lots 15x40 feet. The buildings were erected about two years ago costing \$3,722. The main building is two stories high, with the upper floor fitted up for a dwelling house; the lower story having a 11 1/2 foot ceiling and the upper an 11 foot ceiling, and the whole painted inside and out. Two commodious cellars, one under main building, and one under lean-to. The stores and warehouses are all covered with iron roofing and heated with hot air. They are all shelled and counted for general store purposes. The stable and coach house is 11 stories high. There is an excellent well on the premises with a good force pump and 50 feet of hose. Fort Saskatchewan, in which this store is erected, is one of the most flourishing business points in Northern Alberta and is the centre of a farming district second to none in the fertile belt of the Saskatchewan Valley. The above property will be sold by public auction on

SATURDAY, NOV. 23rd,

at 2 p. m., at Robertson's Hall, Edmonton. Terms Cash.

For further particulars and plans of the buildings apply to.

W. S. ROBERTSON, Auctioneer, Edmonton.

OF VALUABLE

## Farm Property !

Pursuant to the order and direction of the Honorable Mr. Justice Scott, and under and by virtue of a certain registered mortgage made in pursuance of the Territories Real Property Act and amendments thereto, which mortgage will be produced at the time of sale, there will be offered for sale by public auction on

Tuesday, November 19th, '95

At the Sheriff's office, in the Town of Edmonton at the hour of 2.15 p.m., the following property, viz: The Northeast quarter of Section six (6), Township thirty-one (31) Range twenty-four (24), west of Fourth Meridian, in the District of Alberta.

The above described property is situated on the C. & F. Railway between South Edmonton and Leduc, and is watered by the Black Mud river which runs through the farm, and is also further improved by cultivation and the erection of many valuable buildings. Altogether this property, which is known as the ranch of Donald McLeod, is one of the most valuable farms in the district.

Terms and conditions of sale and further particulars and descriptions of the property will be made known at the date of sale or on application to

## CURLING.

The annual meeting of the Edmonton curling club was held on Friday evening in Turnbull & McAdam's office, the president, J. H. Plead in the chair. Sixteen members present. The minutes of previous meetings were read and confirmed. The following propositions of new members were made: G. J. Kinnaird and St. Geo. Jellitt by A. Taylor, Magnus Anderson by K. A. McLeod, R. B. Ferguson by C. W. Sutter, A. H. Anthony and D. Stewart by T. G. Lauder. On motion of Messrs. Turnbull and Lauder the above proposed members were added to the roll. The report of the secretary-treasurer and financial statement for the season of 1945 was read. The report stated that last season the club had rented the curling rink for \$150 including the use of a set of curling stones. They had sublet to Ormsby & Pollett, for the use of skaters, the result of which arrangement was not altogether satisfactory. The prize events were: Hardisty cup, bonspiel, won by Snyder's rink; A. McDonald cup, single hand competition, won by J. M. Douglas; president's medal, series of games, won by Jas. McDonald's rink; district medal, decided by points competition, won by E. Looby with a score of 33. Some dissatisfaction had been expressed on account of the intermittent play. The financial statement showed a deficit of \$14.60, to meet which was \$13.10 in arrears on dues, of which was collectible. The present amount of the club was valued at \$91.25, and included curling stones, etc. A communication was read from S. Garahan offering to furnish ice at \$2 per member, provided there were 30 members. McNeil and Douglas moved that curling be covered on, Turnbull and Lauder moved in amendment that curling be on outside ice. The motion carried, and really amounted to a decision in favor of the old curling rink as against the new hockey rink. The election of officers was then proceeded with and resulted in the election of J. A. McDougall, president, Mrs. Alex. Taylor, patroness, A. E. Snyder, 1st vice-president, K. A. McLeod, 2nd vice-president, J. H. Plead, secretary-treasurer, Jas. McDonald; chaplain, Rev. D. G. McQueen; committee of management, W. McKay, A. Taylor, J. M. Douglas, J. H. Kelly; umpire, A. E. Snyder; representative members, J. Johnston and A. McDonald of Winnipeg. The president elect then took the chair, and Messrs. Plead and Taylor moved that S. Garahan be informed of the decision of the club to use covered ice. The meeting adjourned until the 16th inst., at the same hour and place to receive the report of the managing committee.

## MANITOBA POLITICS.

A Free Press reporter, in conversation with a prominent rural politician learned that there was a strong probability that the local house would be called together before the meeting of the Dominion parliament on Jan. 3rd. "It is most likely," he said, "that the Greenway government has considered its answer to the Ottawa dispatch. What that answer is nobody knows, of course beyond the executive council, but its purport, many people will agree with me, is not likely to differ from the reply just sent in answer to the remedial order. But as this is a matter in which the whole province is largely concerned, the Greenway government will most likely prefer that its action should meet with the approval of the legislature and should take the form of a parliamentary resolution. In this way the message to Ottawa would convey the sentiment of the people of Manitoba more thoroughly than an order-in-council, and would have greater weight throughout Canada. The premier has probably no fear that his government's action will not be endorsed. He is morally sure of carrying it with, say 30 votes out of 40. But all provincial elections are on the cards, and it is well to show confidence in his followers in addition to feeling it. The slight interest which is being taken in the preparation of the provincial voters' lists may really be explained on the grounds that the public are very well satisfied with their present representatives, and that the return of the Greenway government to power by a large majority is taken as an assured fact."

Regina leader: Intimation comes from Ottawa that provision will be made at the coming session of parliament for two representatives for Alberta. The change in Alberta will undoubtedly entail a change in the boundaries of the two Assiniboias. It is anticipated that a slice will be taken from Western Assiniboia and added to Southern Alberta, and that the eastern boundary of Western Assiniboia will be placed further east.

Hon. John Haggart is said to have recently informed Premier Bowell, that in the event of the premier preparing remedial legislation and calling parliament to introduce it, he and Hon. Messrs. Montague and Wood, would resign. Bowell replied, "If you do I will call in Laurier." This is said to have been very strong restraining influence on Haggart.

## METEOROLOGICAL.

The following temperatures are reported from the Dominion government observatory, Edmonton, for the dates given:

	Max.	Min.
Thursday, 7,	31	
Friday, 8,	45	27
Saturday, 9,	47	30
Sunday, 10,	46	34
Monday, 11,		30

Barometer reduced to sea level 30.067, Rainfall 0.14 of an inch.

## BIRTHS.

LYONS—At Edmonton on Sunday, Nov. 10th, the wife of E. Lyons of a son.

## MARRIAGES.

KELLY—HANSON—"At the maids," Edmonton on Thursday evening November 7th, by Rev. D. G. McQueen, Mr. John Kelly, carriage builder, to Miss Essie Hanson, both of Edmonton.

MAKINSON—TINGLEY—At the residence of E. J. Bangs, Poplar lake settlement, Nov. 7th, 1895, by Pastor A. McDonald, Mr. Thomas Cochrane Makinson, South Edmonton, Alberta, and formerly of Gouls, Newfoundland, to Miss Maggie Woodie Tingley, of Poplar lake, and formerly of Amherst, Nova Scotia.

Mr. Makinson is building a house on his newly acquired farm, three miles south of South Edmonton, in which the happy young couple expect to reside in the future.

Battleford Herald: The Indian department has sold another bunch of about fifty fat cattle from the reserves in this agency to Geo. Day.

Battleford Herald: Fires are pretty well extinguished hereabouts, except in the peat bogs, where they will smoulder until there is a good fall of snow.
